Date: 06 June 2025

Dear friends and colleagues in the AAAR community,

Over the past weeks and months, we have been following decisions and actions taken in your country, with unprecedented impacts on the scientific enterprise and on careers and lives of all scientists.

We are writing to express our support for everyone in the scientific community, and particularly to all AAAR members. We appreciate your valuable contributions to aerosol sciences and to scientific progress in a challenging environment. We look forward to continuing the free exchange of ideas and knowledge, encouraging collaborations across borders, and providing mutual opportunities for study and research visits of researchers at all career stages including undergraduates, graduates, PhD, postdoctoral and senior researchers.

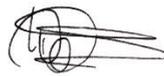

We are committed to support our friends and colleagues in any way we can, by providing assistance in finding rewarding jobs, by providing opportunities for free and open science, by supporting independent publishing of aerosol research, and by facilitating exchange in workshops, meetings and conferences.

To all our friends and colleagues in AAAR, thank you for your contributions, your ideas, your impact. We are all part of the aerosol community, regardless of background, language or workplace, and GAeF will continue to support collaborations across the globe to make a difference. We are convinced that science needs trust, an open mind, freedom and, last but not least, friends.

On behalf of the GAeF board

Andreas Held, President

Mathilde Delaval, Secretary General

Sebastian Schmitt, Treasurer
